Bachelor of Science in Electrical Engineering, with honors (May 2002, GPA: 3.6 / 4.0)

EXPERIENCE

- 2010 **RC FUELS** Oak Brook, IL
A chemical and biosciences company focusing on bio-fuels
Strategy Intern
- Modeled the financial impact of RC Fuels' technology to potential customers and competitors to drive pricing decisions and anticipate competitor response
 - Updated internal financial model to accurately model company operations and determine need for external financing
 - Evaluated industry reports, financial statements, academic research, government policy and interviewed potential customers and internal experts to gain an understanding of the bio-fuels industry and identify potential future complications
 - Compiled findings into a presentation for potential investors
- 2006 – 2009 **BOSE CORPORATION** Bloomfield Hills, MI
Audio Systems Engineer
- Collaborated with cross-functional teams within Bose and client organizations to resolve integration issues that affected the acoustic performance of Bose audio systems
 - Independently developed a modeling tool to perform competitive benchmarking and predict audio quality of Bose audio in new vehicle projects
 - Influenced customer sourcing decisions by presenting proof-of-concept demonstrations to marketing, product planning and engineering teams
 - Lead engineer for new energy efficient amplifier technology, sourced in GM's Chevy Volt
- 2005 – 2006 **ANHEUSER-BUSCH COMPANIES, INC.** Saint Louis, MO
Brewing Operations and Technology Engineer
- Led onsite teams in a large-scale IT upgrade within critical areas of operating breweries
 - Made management recommendations regarding use of new technology in breweries based on analysis of benefits, costs, risks, and implementation issues associated with adoption

ADDITIONAL DATA
